who Brancher with gay.

Reverses rise with the smake wreaths;

Sitting to which in an educate: A hathelor, frigid and lonely— I his the end of my pipe stem, That, and that only.

Menous set der suname? Girls that are marked for I build, Gather are unique.

Liked to have kisses.

Antie was tender and gentle;

To woo was almost to win her: Her lips were as good as rip) perches And taill: for diager.

Nell was a fliat, and coquettish,

"I was ratch the kiss, if you can, sir!
Could I catch both—ah! wasn't I
A happy man, sir?

Annie has gone on a mission Oil to the far South Sea sinners; Nell is a walver, keeps begrelets, and— Cooks her own diamers.

Charlotte, and Susan, and Mattle, Mary Jame, Lucy, and Maggle ; Four are marked and plump, two Married and eraggy.

Carrie is dual! Bloom sweetly

Youngements, o'er her rest! Her I layed dearly and truly, Last and the best.

Thus I sit, smoking and thinking,

A bachelor, frigid and lonely— I kiss the end of my pipe tem, Tool, and that only!

The Lecturer gave an account of the distinishing of fish in the waters of New England, they having been atomslant in all the rivers in former days, but having, to a great extent, disappeared, and in the interior become heatly extinct, as folding on the interior waters is not successful, enough, to pay for time speak in its pursuit. Like the game, they have been wantenly destroyed.

Fish is important as an article of food, supplying the phosphorus necessary to the heathful action of the brain and nerves.

The lecturer shaded brindy to the fisheries of Narragansett Bay, and passed to speak of the mode of protecting the fishories, wherever they were; this could be done only by a philosophical code of laws. The system must be regular and will digested. Heretolore, number of our legislation was aimed at some particular mode; it was not general enough. The fundamental idea is, to recognize tish and game as properly. The original backwoods alea is, that ony thing wild is free planter. We mest diseard that idea how, in the present state of the condity.

As an instance of the value which fisheries may be made to yield, it was instanced tiest last year, Scotland, Ireland, and Wales furnished England with (,000,000 pounds of salmon. A few years since, the fracerles of these countries were insignificant. But having been protected, they have increased and become a regular industry.

Sherman, chairman of the Finance Committee, says the abolition of the duty on cotton will reduce the revenue \$30,000,000. The till which passed the House recently, abolisking taxes on manufactures, will reduce the revenue \$40,000,000, should it become a law. Mr. McCuiloch estimates that the revenues for the next fiscal year will fall off from one laundred to one handred and thirty millions. He says, I camestly ask that the Finance Committee will give this subject enroll neasideration in all its hear.

In Oxygenized Air we keep a positive core for this lisense. The remady is taken by inhabition,earry it, it reaches all parts of the system, decomposiing the impure matter in the Mood and expelling if from the system. Thus you will see that the cause of the disease is removed, and the disease itself mus-

luth's ame manner we treat and radically care Bronckitis and Consumption. Let no one suffering from those diseases despair of trilef. If you are too s description of your symptoms, and forward to the address below.

Send for our circular, which gives a description f these diseases.

Out of the many thousands of testimonials received we publish the following:

a. C. L. Broom—

Bran Sint -I desire to give you my testimonyl regard to the value of your scientific system of trou-ing Cutarth and diseases of the Respiratory arrans. I have need your femoly, "Originatized Air," in my practice for the last year with complete success. I have used the worst forms of Catarth, and a major-ity of the rases of Bronchitis and Communication in their advanced stages. I unqualifiedly pronounce "Oxy-gerized Air" the createst base ever yet conferred upon our suffering race, and hope the day is not far dis-tant when every intelligent physician will a lop! your system in the treatment of all forms of chemic affec-less.

Fraternally yours, I. M. LEE, M. U. No. 199 We-tailuster Street, Providence.
